House Clearances

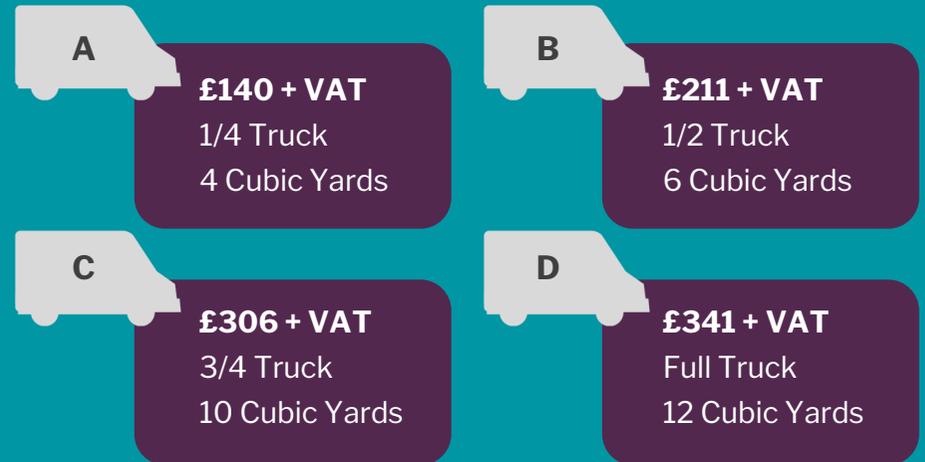

It can be difficult to start thinking and planning a house clearance. The Hospice's House Clearance Team can help provide you with an understanding of what needs to be done including quotes on disconnecting items and the careful disposal of items.

How it works

We will visit the property that needs to be cleared to estimate costs and provide a quote. This service is by appointment only, is subject to availability and in our catchment area only [see regional map opposite].

For a no obligation free quote and to arrange a house clearing assessment and estimate or to answer any questions you may have please get in touch with the team today.
